3 Circles Exercise

These are businesses that you will
enjoy researching and following.

Which sectors/industries represent
the results from your three (3)
Circle exercise?

WHAT IS A SECTOR?

- The term sector describes a large segment of the economy.

There are four different sectors in the economy: primary, secondary, tertiary, and quaternary.

WHAT IS AN INDUSTRY?

- Industry refers to a much more specific group of companies or businesses

Industries are broken down into 24 industry groups, 69 industries and 158 sub-industries.
